

IN THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-18 (Cancelled):

Claim 19 (New): A disk drive unit comprising:

a disk drive;

a socket for housing said disk drive;

a first vibration absorbing member positioned between an inner upper side of said socket and said disk drive; and

a second vibration absorbing member positioned between an inner lower side of said socket and said disk drive.

Claim 20 (New): A disk drive unit according to claim 19, wherein said first vibration absorbing member and said second vibration absorbing member are dampers made of leaf spring.

Claim 21 (New): A disk drive unit according to claim 19, wherein said first vibration absorbing member and said second vibration absorbing member are dampers made of rubber.

Claim 22 (New): A disk drive unit according to claim 19, wherein said first vibration member and said second vibration member support and secure said disk drive inside said socket.

Claim 23 (New): A disk drive unit comprising:

a disk drive;

a socket for housing said disk drive;

a first vibration absorbing member; and

a second vibration absorbing member;

wherein said disk drive is sandwiched by said first vibration absorbing member and said second vibration absorbing member inside said socket.

Claim 24 (New): A disk drive unit according to claim 23, wherein said first vibration absorbing member and said second vibration absorbing member are dampers made of leaf spring.

Claim 25 (New): A disk drive unit according to claim 23, wherein said first vibration absorbing member and said second vibration absorbing member are dampers made of rubber.

Claim 26 (New): A disk drive unit according to claim 23, wherein said first vibration member and said second vibration member support and secure said disk drive inside said socket.

Claim 27 (New): A disk drive unit comprising:

a disk drive;

a vibration absorbing member arranged to cover said disk drive; and

a socket arranged to house said vibration absorbing member and said disk drive.

Claim 28 (New): A disk drive unit according to claim 27, wherein said vibration absorbing member has a first member and a second member, which are dampers made of leaf spring.

Claim 29 (New): A disk drive unit according to claim 27, wherein said vibration absorbing member supports and secures said disk drive inside said socket.

Claim 30 (New): A disk drive unit according to claim 27, wherein said vibration absorbing member has a first member and a second member by which said disk drive is sandwiched.

Claim 31 (New): A disk drive unit according to claim 30, wherein said first member and said second member of said vibration absorbing member are dampers made of leaf spring.

Claim 32 (New): A disk drive unit according to claim 30, wherein said first member and said second member of said vibration absorbing member are dampers made of rubber.
